Download GTA 5 Apk (GTA V) Mod + Data fully unlocked items and GTA 5 cheats for Android and iOS free. Grand Theft Auto V is originally developed by Rockstar Games for Xbox, PSP and PC but now you can play this modded version on Android and iPhone. Because a lot of gamers are requesting to have the Android version of the game, I'm sharing GTA V mod here which can be played on Android phone. About GTA 5 Apk GTA 5 is a high graphic action adventure game with interesting storyline. Initially supported on PlayStation 4, Xbox 360, Xbox One, Microsoft Windows, PS5, PlayStation 3 and Xbox series X. Now can be played on mobile phones with good specs. Grand Theft Auto 5 is the latest in the series released back in September 17, 2013 and has so far being the most played. It has so far outperformed other GTA series like GTA San Andreas, GTA Vice City, GTA III, GTA IV, to mention but a few. CHECK ALSO- Winning Eleven 2018 Apk + OBB Data Mod Download [WE 18]Storyline It's an action-packed game with series of robbery attacks. A crew of bank robbers — Michael Townley, Brad, Trevor, and an unknown getaway driver, as well as their remote contact Lester — attempt to rob a security firm. It took another twist when Trevor murders a security guard and the crew is chased down by the police. In the process, their getaway driver is killed, leaving the rest of the crew attempting to escape on foot. In the ensuing shootout, Trevor makes his escape, believing Michael to be dead. Michael had in fact made a deal with the FBI to turn over his crew in exchange for a fresh start in prison protection. The official story released to the press is that Brad is serving a life sentence in prison and that Michael was laid to rest. Name GTA 5 APK Publisher Jenson Category Games Version v 0.8.1 Size 47MB APK+ 1.2GB OBB Requires 6.0 and Up Download Are you a GTA game Lover like me? Want to play GTA 5 apk on your android phone? Here is the GTA 5 APK for android devices. GTA V apk is a modified version of the official game. In this apk, you get all the features of the PC game. This version of the game for android comes with apk, data, and OBB files. All of these files are necessary to play the game on your mobile device. What is GTA 5 APK? This is one of the most popular games developed by rockstar games. This is an action-adventure game developed for Xbox, PC, PS, and other consoles officially. But, the official game is not yet launched for android devices. Here is the GTA V APK, which is basically a modified version of the official PC game. In this game, you get all the features of the actual game. Now, you can play all the missions, and side missions, on your android device with this android game. Features of GTA 5 APK This mobile game comes with a lot of features but we'll cover only the major features of this game in detail. With this mod game, you can enjoy the full game on your mobile device and can complete all the missions. So, let's begin with the features. High-Quality Graphics In this mobile game, you get very high-quality graphics just like the PC version of the game. The HD and HQ graphics are crisp and realistic, just like in real life. This mobile game makes you addicted to its visuals. High-Quality Audio and Sound All the music tracks of the original game with original audio have been added to this apk game such as Nine is God, Stonecutters, Nowhere to go, etc. The sound and audio quality feel real. You can also listen to the voices of your character and other audience members in this game. The sound of vehicles is very close to the real vehicles as it is recorded from the real vehicles. While playing the game, you will get the feel of the original game. Stable and Smooth Any good Android phone can run the game with great stability and smoothness. In this android game, you will experience smooth gameplay like you were playing on a highly upgraded PC. During gameplay, there will never be any lag or crashes. Full Access to All Missions and Game Some mod games offer you only limited access to the game. You can only play the first mission of the game in those mods, but we are offering you the best version of the game in which you get access to all missions of the game. Now, you can play all 69 missions of the game from Prologue to The third way. You also get access to the full game, such as shops, including coffee shops, weapons shops, outlet shops, etc, different cities, and much more. Easy Controllers In this mobile game, you get a very easy controller to play the big game easily on your phone. You can also set the controls according to your choice from the settings such as tilt mode or steering mode. Online Access The game also supports online access. Now, you can play the game on your android phone with other players online. This feature of the game gives you more joyful gameplay. And you can enjoy the game with your online friends and family. Multiplayer Mode This modified game also offers you multiplayer mode. Through multiplayer mode, you can also play against others in real-time. The access to all characters of GTA V such as Trevor, Franklin, etc. Now, you can play the game with your favorite character on your android device. You can also choose the story according to that player in this game. This game also offers you to do micro-jobs to earn money and respect. It also offers you some side missions such as pizza boy, policeman, etc. And in this mobile version, you also get access to all those side missions and small jobs. Lightweight This modded game is very lightweight, and you can play it on any older android device with low specifications, such as 2GB ram and 4GB storage with android 5.0. But, if you have an older device, you should play the game on low settings for a better experience. Customization In this game, you can change the outfits of your characters. You can buy different clothes, shoes, and outfits from the shop in this mobile game. In this game, you can also buy costumes online for your character. You can also buy different guns, vehicles, etc in this game. Multi-Language Support The mobile game comes in the English language by default but it supports many other languages as well such as French, Spanish, etc. there's no need to purchase a premium account afterward, go to the app section and click on the game icon. Click on the play button and enjoy the game. That's all you have to do to play GTA V on your mobile device. GTA V For IOS Are you an IOS user? Want to play GTA 5 on your iPhone? Here is the GTA V IOS version, which you can download and play on your iPhone. The graphics quality, gameplay, and everything are like the original game in the IOS version. Now, you can enjoy this video game on your IOS devices as well. So, What are you waiting for? Click on the download button to download the GTA V IOS Free with data and OBB file. FAQs How to download GTA 5 on an android device?You can download GTA 5 for android devices by clicking on the download button. It is 100% free to download and play on mobile devices. How to install GTA V on android?1.Go to the download folder and click on the GTA V.APK. 2.Now, allow unknown source installation from the settings of your phone. 3.Click on the install button and wait for a few minutes. 4.It will only take a few minutes to install completely. GTA V APK and IOS are modified versions of the official game version. Here you can download the GTA V APK+OBB for free. The game comes with complete access.
